

Dear Dealer Principal:

We are pleased to announce that RevolutionParts Inc.'s RevolutionParts - Parts Inventory Sourcing and Marketing Platform is using a CDK-approved interface through our CDK Partner Program. Our CDK Partner Program lets you choose the vendors with whom you want to securely share your data.

The benefits of working with a CDK Partner Program participating vendor include:

- Access is limited to predefined data types necessary to support the vendor's application integration
- Monitoring and troubleshooting of integration processes.
- A dedicated CDK Partner Program support team.
- No code is installed directly on your CDK System: Avoid reliability, security, and data integrity problems.
- Improved data transparency: RevolutionParts Inc. will be visible under approved interface reporting in Dealer Data Exchange (DDX) – CDK's new data integration reporting tool now activated for CDK dealers.
- Managed secure access: Integration saves you time and increases accuracy.

For additional information on CDK's Partner Program, please contact us at 888.424.6342 or visit us at www.cdkglobal.com/partners.

Sincerely,

A handwritten signature in black ink, appearing to read "Howard Gardner", with a long horizontal flourish extending to the right.

Howard Gardner
Vice President and General Manager
